ART/PSYC 250: Art Therapy

Course Syllabus

Spring Semester 2022

Instructor: Philippa Stannard, MFA, ATR
Credits: 3
Contact Hours: 45
Prerequisites: none
Class Hours: Monday and Wednesday, T.B.A.
Plus one hour expected classwork a week
Office Hours: Before or after class or by appointment, Photo Lab, Umbra Institute

Course Type: Standard Course

Course Description
Art therapy uses different forms of creative expression to help people explore and transform feelings, thoughts, and ideas. It can help to process and cope with emotional issues as well as facilitate self-awareness, understanding, healing, and well-being. Art therapy can be especially useful for people who find it difficult to talk about their thoughts and emotions.

In this course, students will examine theories and models of art therapy from an international and cross-cultural perspective. Through discussion of readings, sharing of experiences, group work, and art therapy activities, students will increase their understanding of the history, theory, practice, and applications of art therapy in various settings.

This course is of particular interest for students majoring in Psychology, Communications, Art, Human Development, Special Education, Disability Studies, and Occupational Therapy. Students who commit to this course should keep an open mind, be motivated to actively learn, and be flexible. No artistic aptitude or background is expected or necessary.

Course Requirements
Grades are based on the following learning activities: readings and class discussions that provide students with a theoretical framework, written reflections, class participation, and oral and written presentation on an application, a method, or a project in which art therapy is used. Please see Moodle for complete, up to date information.
Participation (10%)
Class participation grades are based on oral contributions to the collective learning experience. Participation means active engagement in the course: being prepared for class by having carefully read that day’s assignments, asking questions, responding to questions, and attentively listening to others during activities and theoretical discussions. Falling asleep, checking your phone, or not actively participating during class time has a negative impact on this part of your grade. Please see Moodle for more information.

Journal (10%)
Journal reflections help students solidify their understanding of the course materials, offers them an opportunity to explore the in-class activities further, and facilitates self-reflection. Students will utilize a creative journal throughout the course to facilitate self-reflection and the art therapy activities. They will be provided at the beginning of the semester. The journal will include individual pieces, drawing, painting, collage, photos as well as written reflections on each project, the readings, and hands-on exercises. Journals are, for the most part, self-guided in terms of content. However, at times, specific indications for journal entries or activities will be given in conjunction with your reading. See Moodle for more indications. Students will not be graded on their artistic skill, but rather on the thought process and effort invested in their artwork.
and writings. Students are expected to complete a page a day for the duration of the semester. Journals will be checked at mid-term as well as at the end of the semester. As journals may be quite personal, the professor will not be reading them word for word. The journal check is to simply evaluate the time and energy you have put into it.

Written Reflections and Discussion Questions on Readings (25%)
The theoretical understanding of Art Therapy is based on our readings, presentations, and class discussions. For each reading assignment students will prepare a summary and analysis of the assigned readings and relate it to theoretical framework and experiential activities covered in class. Your written reflection should be between 200-500 words and should answer the following questions:
1) What was the reading's main question in a single sentence?
2) What was done/discussed and what did they find?
3) How does the reading relate to other readings, in class discussion, and/or class projects?
4) Which part of the reading did you find useful?/are critical of?

Please include four questions designed to promote discussion at the end of this summary. These questions will be used during class as a departure point for our discussion about our readings.

Oral Report and Written Paper (15% + 15%)
Each student will research an application, method, and project in which art therapy is used. They will create and lead an art therapy activity (different from the activities done in class) based on their chosen subject with a small group of peers. Students will prepare a visual and oral presentation, and lead a class discussion on their chosen topic.

The Oral Report and Discussion (15%) will be given to the class as a visual presentation. Students should explain the application, method, and art therapy project, as well as engaging the class in a lively and interesting discussion on the chosen topic, its application, and the art therapy activity. Please upload your presentation to the link provided on Moodle in our Google Drive folder. Ensure that all sharing permissions are needed so that you can access your presentation from my account (EDITOR permissions).

The Written Paper (15%) on the chosen application, method, or project in which art therapy is used. It should include a description of the art therapy project that was chosen based on your subject, and carried out with a small group of peers. The paper should be between 1500 - 2000 words, typed, and double spaced. The paper should be in Google Doc format and uploaded to the link provided on the day of your presentation. It is automatically checked for proper quotations of sources, plagiarism will result in an F.

Quizzes and Tests (25%) will cover all topics presented in the course, and be based on your weekly readings and class discussions. They can be accessed on Moodle, and have a specific date and time by which they should be completed.

Attendance Policy
Absences for Covid-related circumstances: in order to keep the entire Umbra community healthy and to comply with local laws, you may not enter the Umbra premises if you have a temperature of 37.5 °C (99.5 °F) or higher. For all students who display any relevant symptoms, the procedure will be the following:

1. avoid going to class;
2. immediately notify the Student Services staff;
3. be prepared to get tested for COVID at a local pharmacy within the day.

The following additional conditions apply:

- Students may attend classes remotely and without academic penalty via Zoom or Skype but only if they are waiting for the test to be scheduled or performed.
- Students with a positive test result (or who have been in close contact with someone who tested
positive) must follow all applicable quarantine or isolation requirements and may attend classes remotely, without academic penalty.

- Students with a negative test result are allowed to attend class in person.

It is Institute policy that students with symptoms be tested. Any student refusing testing will not be admitted to the Institute under any circumstances and any absences will not be considered eligible for an extra absence for any classes missed. In other words, refusing a test and staying in one’s apartment is considered an unexcused absence.

Class attendance (in person or through live connection) is mandatory. Students are allowed two “free” absences, which do not need to be justified. However, it is considered common courtesy to inform the instructor of your absence when possible. It is the students’ responsibility to keep them in case of real necessity (sickness or any other unforeseen inconvenience that may prevent students from being in class).

Additional absences relating to illness may be approved by the Academic Director but only if a medical certification is provided.

Each additional absence, unless for a very serious reason, will lower the students’ grade by one grade level (i.e., a final grade of a B+ would be lowered to a B). If students miss class, they are responsible for obtaining class notes from other students and/or for meeting the professor during office hours. It is also the policy of the Institute that any student who has eight or more absences automatically fails the class.

Except in the case of medical emergencies, absences are not accepted when tests are scheduled; tests cannot be made up. Furthermore, scheduled times and dates indicated for exams, quizzes, oral presentations, and any other graded assignments cannot be changed for any reason. Even if more sections of the same class are activated, students may only take exams during the scheduled times and dates for the section they are enrolled in.

**Academic Integrity**

All forms of cheating (i.e., copying during exam either from a fellow student or making unauthorized use of notes) and plagiarism (i.e., presenting the ideas or words of another person for academic evaluation without acknowledging the source) will be handled according to the Institute Academic Policy, which can be found in the Umbra Institute Academic Policies and Conduct Guidelines.

**Classroom Policy**

Students are expected to follow the policy of the Institute and demonstrate the appropriate respect for the historical premises that the school occupies. Please note that cell phones must be turned off before the beginning of each class. Computers and other electronic devices cannot be used during class lectures and discussions.

Feel free to email me if you run into any problems, BUT before you email (1) read the syllabus and all other previous correspondences, (2) Check Moodle, (3) Ask a friend, (4) Google. Read requirements well in advance so that you are not faced with a problem the night before or just hours before submission.
