Spring Semester 2020

Instructor: Philippa Stannard, MFA, Art Therapist

Credits: 3

Contact Hours: 45

Prerequisites: None

Office Hours: TBA

Email: philippastannard@gmail.com

Course Type: Standard Course

Course Meetings: TBA

Lab Fee: 100 €

Course Description

Art therapy uses different forms of creative expression to help people explore and transform feelings, thoughts, and ideas. It can help to process and cope with emotional issues as well as facilitate self-awareness, understanding, healing, and well-being. Art therapy can be especially useful for people who find it difficult to talk about their thoughts and emotions.

In this course, students will examine theories and models of art therapy from an international and cross-cultural perspective. Through discussion of readings, sharing of experiences, group work, and art therapy activities, students will increase their understanding of the history, theory, practice, and applications of art therapy in various settings.

This course is of particular interest for students majoring in Psychology, Communications, Art, Human Development, Special Education, Disability Studies, and Occupational Therapy. Students who commit to this course should keep an open mind, be motivated to actively learn, and be flexible. No artistic aptitude or background is expected or necessary.

Learning Outcomes

Students will have a deeper understanding and recognition of non-verbal communication

Critically think of personal beliefs, values, and judgements about health and wellness

Improve communication skills

Assessment Measures

Class discussion, art therapy activities, written reflections, journals.

Class discussion, journal, written reflections.

Assessment

Participation	25%
Journal	10%
Written Reflections and Discussion Questions on Readings	25%
Oral Report	15%
Written Paper	15%
Art Therapy Activity	10%

Grading

Letter grades for student work are based on the following percentage scale:

Letter Grade Range	Numerical Score Equivalent	Student Performance
A	93% - 100%	Exceptional
A-	90% - 92%	Excellent
B+	87% -89%	Superior
B	83% - 86%	
B-	80% - 82%	
C+	77% - 79%	Satisfactory
C	73% - 76%	
C-	70% - 72%	
D+	67% - 69%	Low Pass
D	63% - 66%	
D-	60% - 62%	
F	59% or less	Fail (no credit)

Course Requirements

Grades are based on the following learning activities: readings and class discussions that provide students with a theoretical framework, written reflections, class participation, and oral and written presentation on an application, a method, or a project in which art therapy is used.

Participation (25%)

Syllabi available for download from the Umbra Institute website only with the purpose of informing students and advisers about course content. **All rights are reserved.**

Class participation grades are based on oral contributions to the collective learning experience. Participation means active engagement in the course: being prepared for class by having carefully read that day's assignments, asking questions, responding to questions, and attentively listening to others during activities and theoretical discussions. Falling asleep, checking your phone, or not actively participating during class time has a negative impact on this part of your grade.

Journal (10%)

Journal reflections help students solidify their understanding of the course materials and offer them an opportunity to explore the in-class activities further. Students will utilize a creative journal throughout the course to facilitate self-reflection and the art therapy activities. They will be provided at the beginning of the semester. The journal will include individual pieces, drawing, painting, collage, photos as well as written reflections on each project, the readings, and hands-on exercises. Students will not be graded on their artistic skill, but rather on the thought process and effort invested in their artwork and writings. Students are expected to work on their journal daily. The professor will periodically look at the journals to assure that students are fulfilling the assignments. However, as journals may be quite personal, the professor will not be reading them word for word. The provided Journals have 50 pages. They should be completed by the end of the semester.

Written Reflections and Discussion Questions on Readings (25%)

The theoretical understanding of Art Therapy is based on our readings, presentations, and class discussions. For each reading assignment students will prepare a summary and analysis of the assigned readings and relate it to theoretical framework and experiential activities covered in class. Please include four questions designed to promote discussion at the end of this summary. These questions will be used during class as a departure point for our discussion about our readings.

Oral Report, Written Paper, and Art Therapy Activity (15% + 15% + 10% = 40%)

Each student will research an application, method, and project in which art therapy is used. Students will choose an article for the class to read, prepare a visual and oral presentation, and lead a discussion on their chosen topic. The article will be shared with the class the week before the oral report on the subject. In addition, students will research and propose an Art Therapy activity based on their research. This activity will take place on the Wednesday after the report and discussion on the chosen subject. Students will be assigned presentation and art therapy activity due dates based on their chosen subject, in order to group similar themes on the same day.

The *Oral Report and Discussion* (15%) will be given to the class as a visual presentation. Students should explain the application, method, or project, as well as engaging the class in a lively and interesting discussion on the chosen topic.

The *Written Paper* (15%) on the chosen application, method, or project in which art therapy is used. The paper should be between 1500 - 2000 words, typed, and double spaced. The written paper should be printed, stapled, and handed in on the class before your oral presentation to the class on your chosen subject.

The *Art Therapy Activity* (10%) will be carried out in the class following the oral presentation. Students will be placed in groups according to subject. Each group will work together and propose an art therapy activity based on the subject and themes presented in the previous class.

Attendance Policy

Class attendance is **mandatory**. Students are allowed **two "free" absences**, which do not need to be justified. **It is the students' responsibility to keep them in case of real necessity (sickness or any other unforeseen inconvenience that may prevent students from being in class)**. Each additional absence, unless for a very serious reason, will lower the students' grade by one grade level (i.e., a final grade of a B+

Syllabi available for download from the Umbra Institute website only with the purpose of informing students and advisers about course content. **All rights are reserved** would be lowered to a B).

If students miss class, they are responsible for obtaining class notes from other students and/or for meeting the professor during office hours. It is also the policy of the Institute that any student who has eight or more absences automatically fails the class.

Except in the case of medical emergencies, absences are not accepted when tests are scheduled; tests cannot be made up. **Furthermore, scheduled times and dates indicated for exams, quizzes, oral presentations, and any other graded assignments cannot be changed for any reason.** Even if more sections of the same class are activated, students may only take exams during the scheduled times and dates for the section they are enrolled in.

Presence during mandatory field trips is especially important for student performance in class. Missing a mandatory field trip, unless for a very serious reason that is communicated to the professor and Umbra Academic Director in a timely manner, will lower students' final grade by one grade level (i.e., a final grade of a B+ would be lowered to a B).

Academic Integrity

All forms of **cheating** (i.e., copying during exam either from a fellow student or making unauthorized use of notes) and **plagiarism** (i.e., presenting the ideas or words of another person for academic evaluation without acknowledging the source) will be handled according to the Institute Academic Policy, which can be found in the Umbra Institute Academic Policies and Conduct Guidelines.

Classroom Policy

Students are expected to follow the policy of the Institute and demonstrate the appropriate **respect** for the historical premises that the school occupies. Please note that **cell phones** must be turned off before the beginning of each class. **Computers and other electronic devices** cannot be used during class lectures and discussions.
