CESP 354: Critical Disabilities Studies: Seminar and Practicum

Course Syllabus

Spring 2022

**Instructor:** Melanie McCallum, MD, MPH  
**Credits:** 3  
**Contact Hours:** 3 contact hours/week practicum; 30 contact hours total  
1.5 contact hours/week seminar; 15 contact hours total  

**Prerequisites:** Application based admission  
**Class Hours:**  
**Office Hours:**  
**Course Type:** Seminar and Practicum  

**Course Description**  
The course intends to give a multicultural view on differently abled persons and how societies respond and handle the issue. Focus is posed on the different forms of disability (acquired vs. inborn), how to empower a differently-abled person in order to reinforce resilience and how to reach as much independence as possible in case of a critical disability. Students will gain insight on how different countries respond to disabilities and which policies of integration are adopted.

All students enrolled in this course will complete three contact hours per week with VIVA Sports Association, which is the first athletic program for kids and adults with motor and/or intellectual disabilities in Perugia. Students will assist the professional staff in managing the athletic activities, helping children and adults with a variety of disabilities play sports, including fencing, ping-pong, volleyball, and basketball to develop social and motor skills. In addition, students will also collaborate with VIVA staff in designing new activities.

The goal of this course is to foster greater awareness of the experiences of differently-abled people and reflection on inclusion of individuals with disabilities into society by assuming a critical perspective. It also introduces students to cultural engagement based on mutual benefit and growth through dialogue and hands-on experience. The course is designed for students willing to broaden their cultural perspectives, develop a heightened sense of intercultural awareness and sensitivity, and see different communities from a comparative, global standpoint. Students who commit to this course should keep an open mind, be motivated to actively learn, and be flexible.

Learning Outcomes and Assessment Measures
By the end of the course, students will be able to:

<table>
<thead>
<tr>
<th>Learning Outcomes</th>
<th>Assessment Measures</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Summarise and List</strong> the main forms of disability</td>
<td>Mid Term Exam</td>
</tr>
<tr>
<td><strong>Understand and Describe</strong> cultural variations of approaches to integrate differently-abled people</td>
<td>Class Discussion and Practicum Participation</td>
</tr>
<tr>
<td><strong>Summarise and List</strong> the aims of a programme to encourage participation and build resilience for differently-abled people</td>
<td>Mid Term Exam</td>
</tr>
<tr>
<td><strong>Evaluate and Analyze</strong> a programme to encourage participation and build resilience for differently-abled people</td>
<td>Practicum Participation and Group Presentations of Research Project</td>
</tr>
</tbody>
</table>

Course Materials
Readings
All reading materials will be made available in digital format on Moodle.
Please see “Umbra Institute Course Materials - Textbooks and Readers” handout provided in the orientation folder for more information. Readings will include:

- Persson L.O., Ryden A. (2006) Themes of effective coping in physical disability: an interview study of 26 persons who have learnt to live with their disability
- Un Convention of the Rights of the Child (1989) [Children's Version]
- Olivier L., Sterkenburg P., Van Rensburg E. (2016) The effect of serious game on empathy and prejudice of psychology students towards a person with disabilities
- Sancassain F., Machado S., Preti A. (2018) Physical Activity, Exercise and Sport Programs as effective therapeutic tools in Psychosocial Rehabilitation

Films
- Intouchables
- Wonder
- Growing Hope
Assessment

Grading

Letter grades for student work are based on the following percentage scale:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Numerical Score Equivalent</th>
<th>Student Performance</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93% - 100%</td>
<td>Exceptional</td>
</tr>
<tr>
<td>A-</td>
<td>90% - 92%</td>
<td>Excellent</td>
</tr>
<tr>
<td>B+</td>
<td>87% - 89%</td>
<td>Superior</td>
</tr>
<tr>
<td>B</td>
<td>83% - 86%</td>
<td>Satisfactory</td>
</tr>
<tr>
<td>B-</td>
<td>80% - 82%</td>
<td></td>
</tr>
<tr>
<td>C+</td>
<td>77% - 79%</td>
<td></td>
</tr>
<tr>
<td>C</td>
<td>73% - 76%</td>
<td></td>
</tr>
<tr>
<td>C-</td>
<td>70% - 72%</td>
<td></td>
</tr>
<tr>
<td>D+</td>
<td>67% - 69%</td>
<td></td>
</tr>
<tr>
<td>D</td>
<td>63% - 66%</td>
<td>Low Pass</td>
</tr>
<tr>
<td>D-</td>
<td>60% - 62%</td>
<td></td>
</tr>
<tr>
<td>F</td>
<td>59% or less</td>
<td>Fail (no credit)</td>
</tr>
</tbody>
</table>

Course Requirements

Grades are based on students’ commitment to the practicum and participation in class seminars, as well as students’ academic work, assessed through reflective papers, project, exams and presentations.

Participation (20%)

Is composed of two different parts:

In class-activity (10%)

Class participation grades are based on oral contributions to the collective learning experience. Participation means active engagement in the course: being prepared for class (having carefully read that day’s assignments), asking questions, responding to questions, and attentively listening to others.

Practicum Evaluation by Community Partner (10%)

Host supervisors will be asked to provide a feedback that reflects students’ engagement and commitment to the practicum.

Reflective Paper (25%)

Students will have to submit a reflective paper at the end of the course. They will be required to select and discuss a topic from the units to a personal experience, citing five recent authoritative sources. The paper should be approximately 2,500 words long. A specific assignment will be handed out at the beginning of the course.

Midterm Exam (15%)

Syllabi available for download from the Umbra Institute website only with the purpose of informing students and advisers about course content. All rights are reserved.
Students will be required to complete a written midterm and final exam. Both exams will be comprised of different types of questions (e.g., multiple choice questions, definitions, true/false), and at least 50% of these exams will be essay questions that will require the student to utilize critical thinking skills and to apply knowledge learned from class and from the assigned readings. Students will be asked to describe and discuss key concepts in the field of critical disabilities and apply these concepts to case examples. Students will need to describe various research methods as well as their strengths and limitations.

**Project (15%)**
The is a group effort carried out by the students in and out of the class activity in which each student receives a precise assignment by the instructor in order to contribute efficiently to the group activity. A detailed explanation will be given at the beginning of the course and the outcome of the project will be presented in a group presentation on the week of the final events.

**Final Presentation of the Group Project (15%)**
The class will complete a group project which combines the practicum and the acquired knowledge. The outcome will be presented by the student to the Umbra Community on the week for Special Academic Events, April 27 to May 1.

**Attendance Policy**
Absences for Covid-related circumstances: in order to keep the entire Umbra community healthy and to comply with local laws, you may not enter the Umbra premises if you have a temperature of 37.5 °C (99.5 °F) or higher. For all students who display any relevant symptoms, the procedure will be the following:

1. avoid going to class;
2. immediately notify the Student Services staff;
3. be prepared to get tested for COVID at a local pharmacy within the day.

The following additional conditions apply:
- Students may attend classes remotely and without academic penalty via Zoom or Skype *but only if* they are waiting for the test to be scheduled or performed.
- Students with a positive test result (or who have been in close contact with someone who tested positive) must follow all applicable quarantine or isolation requirements and may attend classes remotely, *without academic penalty*.
- Students with a negative test result are allowed to attend class in person.

It is Institute policy that students with symptoms be tested. Any student refusing testing will not be admitted to the Institute under any circumstances and any absences will not be considered eligible for an extra absence for any classes missed. In other words, refusing a test and staying in one’s apartment is considered an unexcused absence.

Class attendance (in person or through live connection) is mandatory. Students are allowed two “free” absences, which do not need to be justified. However, it is considered common courtesy to inform the instructor of your absence when possible. It is the students’ responsibility to keep them in case of real necessity (sickness or any other unforeseen inconvenience that may prevent students from being in class).

**Additional absences relating to illness may be approved by the Academic Director but only if a medical certification is provided.**

Each additional absence, unless for a very serious reason, will lower the students’ grade by one grade level (i.e., a final grade of a B+ would be lowered to a B). If students miss class, they are responsible for obtaining class notes from other students and/or for meeting the professor during office hours. It is also the policy of the Institute that any student who has eight or more absences automatically fails the class.

Except in the case of medical emergencies, absences are not accepted when tests are scheduled; tests cannot be made up. Furthermore, scheduled times and dates indicated for exams, quizzes, oral presentations, and any other graded assignments cannot be changed for any reason. Even if more sections of the same class are activated, students may only take exams during the scheduled times and dates for the section they are enrolled in.

**Academic Integrity**
All forms of cheating (i.e., copying during exam either from a fellow student or making unauthorized use of notes) and plagiarism (i.e., presenting the ideas or words of another person for academic evaluation without acknowledging the source) will be handled according to the Institute Academic Policy, which can be found in the Umbra Institute Academic Policies and Conduct Guidelines.

**Classroom Policy**
Syllabi available for download from the Umbra Institute website only with the purpose of informing students and advisers about course content. All rights are reserved.

Students are expected to follow the policy of the Institute and demonstrate the appropriate respect for the historical premises that the school occupies. Please note that cell phones must be turned off before the beginning of each class. Computers and other electronic devices can be used during class lectures and discussions if approved or required by the instructor.

Schedule of Topics, Readings, and Assignments

WEEK 1

Seminar 1  
Introduction to the course and definition of critical disabilities  
Goals and expectations: What is critical disability?

Readings  

WEEK 2

Seminar 2  
How to make efficient observations

Readings  
Lorenz K.A. et al. (2017) Developing the System for Observing Behavioral Ecology for Youth in Schools

WEEK 3

Seminar 3  
Utility of physical activity in disabilities

Readings  
Sancassiani F., Machado S., Preti A. (2018) Physical Activity, Exercise and Sport Programs as effective therapeutic tools in Psychosocial Rehabilitation

WEEK 4

Seminar 4  
Challenges and implications in development: inborn and acquired disabilities  
Preventable Disabilities and Improving Future Outcomes

Readings  
Persson L.O., Ryden A. (2006) Themes of effective coping in physical disability: an interview study of 26 persons who have learnt to live with their disability  
Payne-Sturges D.C., Swanson M., Balmes J., Hertz-Picciotto I. (2019) Healthy Air, Healthy Brains: Advancing Air Pollution Policy to Protect Children's Health

https://www.who.int/news-room/fact-sheets/detail/congenital-anomalies
WEEK 5

Seminar 5  Disability and Integration into society

Readings

WEEK 6

Seminar 6  Definition and Importance of context and coping with disabilities

Readings

SEMESTER BREAK

WEEK 7

Seminar 7  Midterm Exam

WEEK 8

Seminar 8  Comparison of response and treatment to physical and mental disabilities

Readings
APA (2013) DSM-5 p. 749-759

WEEK 9

Seminar 9  Being differently able: Resilience

Readings
Syllabi available for download from the Umbra Institute website only with the purpose of informing students and advisers about course content. All rights are reserved.

WEEK 10

Seminar 10

Conclusion of the Group Project

Taking Stock of the Experience

Rehearsal for the final presentation

Service Learning Project: End of Semester Community EngageGAMES overview with Umbra staff and preparation for event.
